

HAVEN HIGH TECHNOLOGY COLLEGE
SMOKING POLICY

This Policy has been drawn up to comply with the Smokefree Legislation. The basic principle underlying Haven High's response to the legislation, is to ensure that staff are not standing at the college gate at break and lunchtime, smoking in full view of students and our neighbours.

The college has complied with the legislation as follows:

- Staff are not permitted to smoke in any area of the college. The exception to this is for events after school hours organised for the community as part of the college's Full Service Extended School designation. Adults will be permitted to smoke outside the main entrance where special bins have been placed.
- There will be no smoking allowed in the school mini buses and signage has been placed in the buses.
- No-smoking signs have been displayed around the college.
